qLabs® Coag Panel 2 Vet PT/APTT Combo for Professional Point of Care

qLabs® Coag Panel 2 Vet PT/APTT Combo for Professional Point of Care

Feature Highlights

- Lightweight handheld meter with option of eStation docking system
- Dried-reagent strips stored at room temperature for true ready-to-use
- Excellent correlation to central laboratory results
- Versatile sample types: venous whole blood, citrate whole blood
- Smallest blood sample volume
- Stable external QC controls
- Flexible reference intervals set by operator
- Built-in barcode scanner for accuracy and efficiency
- Built-in communication port for printers or computer networks
- Patented RACE TM technology for rapid and accurate PT and APTT determination

Animal Species

- Canine (dog)
- Feline (cat)

Sample Type

- Fresh venous whole blood
- Citrate whole blood

Sample Volume

10 μL

Time to Results

• < 7 minutes

Reportable Time Range

- PT: 10 to 80 seconds
- APTT: 10 to 420 seconds

Reference Intervals

- Canine (dog)

 -PT: 14 to 19 seconds
 -APTT: 75 to 105 seconds
- Feline (cat)

 -PT: 15 to 21 seconds
 -APTT: 94 to 125 seconds

Precision

• In-house lot-to-lot and day-to-day precision <5.0 CV% (mean value)

External QC Control

- Lyophilized whole blood preparations
- Level I, Level II

Operating Temperature Range

• 10° C to 35° C

Operating Humidity Range

• 10% to 90% RH

Shelf Life at Room Temperature

12 months at 15° C to 30° C

ABOUT MICROPOINT

Micropoint Biotechnologies, Inc. is a global provider of Point of Care Testing (POCT) systems and solutions. We are improving patient care by providing rapid, accurate, reliable, and low cost diagnostic products. Micropoint's patented microfluidic technologies and three proprietary POCT platforms enable testing at the same high quality level as a central lab, but with improved speed and convenience. Micropoint's products are manufactured in cGMP and ISO 13485 certified facilities.
